

BO PENG

Software Developer

USA Citizen | 208-740-3320 | bo.peng0708@gmail.com

CAREER SUMMARY:

Solution-oriented and problem solver with 3 years of experience building and maintaining software and software architecture. Experienced in working multiple projects simultaneously and collaborating with Agile team on large-scale React frontend and .Net Backend applications.

WORK EXPERIENCE:

Spatial Front Inc.

Software Developer | May 2022 – July 2025

- Developed the complete redesign of the several pages on **React** application for dynamic reflow and mobile use through effective application of a grid system using **Javascript** and **CSS/HTML**.
- Enabled customers to perform site-wide searches through a text search tool created using **React/Javascript** on the frontend and **.Net/C#** on the backend saving on average 4 clicks and cutting time by around 40%.
- Improved users' understanding of key information through **React/Javascript** data visualization on **.Net/C#** API queries.
- Provided easy-to-use APIs with aggregated data by following the MVC architecture including using **.Net/C#** in a three-layer backend approach.
- Collaborated with Senior Database Administrators on optimal database queries through data minimization using **.Net/C#**.
- Performed rigorous testing and debugging using **RESTful API** on newly created **.Net/C#** endpoints, ensuring accurate and useful data.
- Implemented a landing page to improve navigation of **React** application using **Javascript** and **CSS/HTML**, giving easier access to desired information.
- Established automated integration and unit testing using **xUnit**, achieving over 80% line coverage in reports generated by **Coverlet/Cobertura**.
- Collaborated with UX team on **Figma** visual redesigns of **React** application pages using **CSS/HTML**, enhancing customers' browsing experience.
- Contributed to the migration of at least 30 static elements from **React/Javascript** frontend codebase to the backend database by storing the elements in a data table using **MySQL** queries and retrieving the elements of data using simple API calls.
- Resolved multiple visual and functional bugs using **React/Javascript** and **CSS/HTML** ensuring rapid turnaround on issues reported by product owners.
- Experienced collaborating in a remote work environment consisting of daily stand-up video meetings to address individual and team progress on projects,
- Mentored new members of my team to better understand expectations on work quality.
- Enriched my developer skills by immersing myself in a professional SAFe agile and scrums environment while becoming **SAFe Certified**.

EDUCATION:

Vanderbilt University | 2017 – 2021

B.S. in Computer Science

SKILLS:

Languages: C#, Javascript, CSS/HTML, SQL

Frameworks and Tools: React, Drupal, .Net Core, NodeJS, xUnit, Jira, Bitbucket, Docker, MySQL
